

Safe WiFi is a Campaign of Enough Is Enough®

# SAFE AIRLINES & AIRPORTS INCLUDE SAFE WIFI

## ALIRLINE PASSENGERS ARE VIEWING PORN IN PLAIN SIGHT OF OTHERS, INCLUDING CHILDREN!

Passengers, who view hard-core pornography (obscenity) on their personal devices are doing so in tight, closed quarters, and **in plain sight of children. Obscenity is illegal under Federal law**, and is a fuels the demand for sex trafficking and child sexual exploitation.

## SEXUAL HARASSMENT, VIOLENT/EXPLOITATIVE CONTENT AND SEXUAL PREDATION HAVE NO PLACE ON LAND ... NOR IN THE AIR

The viewing of pornography on board often leave **passengers and flight crew feeling uncomfortable, unsafe and victim to sexual harassment**, and can lead to a potentially hostile and toxic environment.

## 1 IN 6 PEOPLE USE PUBLIC WIFI TO VIEW ADULT CONTENT/PORN

\*Of those who admit to it, **25 percent said they've done so in an Airport.**

(2017 Global Survey by Norton by Symantec)

## UNFILTERED WIFI ALLOWS ACCESS BY SEX PREDATORS/TRAFFICKERS TO ILLEGAL CHILD SEX ABUSE MATERIAL

Unfiltered in-flight WiFi opens the door to access to child sex abuse materials (CSAM), often known as "child pornography," and potential victims. **This content is illegal.** In 2021, **29.3 million reports** of suspected child sexual exploitation were made to the CyberTipline.

## FILTERING WIFI FROM PORNOGRAPHY AND CHILD SEX ABUSE MATERIAL IS A "WIN-WIN"

**Airlines/Airports offering Safe WiFi is an act of corporate social responsibility.** Industry leaders are already taking proactive measures to train crew to recognize and prevent human trafficking. **Filtering in-flight and airport WiFi adds to the comprehensive efforts to combat all forms of sexual exploitation.**
